Observations...

By the Editor

The charge by Les Bennett, a New Orleans Item Reporter, that the Chancery Court of Harrison County was a "Divorce Mill" was labeled by Judge D. M. Russell, Chancellor of this District, as an "untrue and unjust indictment; we do not hesitate to join Judge Russell in this statement. It is indeed unfair to Judge Russell for anyone to make the charges that were made in the Item about his court, when, as a matter of fact, the whole matter was founded upon evidence secured by a young lady reporter who posed as a married woman, attempting to secure a divorce from a non-existent husband, and who found a lawyer in Gulfport, who would join with her, supposedly to perpetrate a fraud upon the court. In the filing of a perjured bill of complaint... declaring that the parties were residents of Harrison County, when they were residents of Louisiana... The story charged that the court granted divorces to parties who were not residents of Harrison County, but were residents of Louisiana; and that persons who were willing to perjure themselves and employ "Unscrupulous lawyers" could get a divorce within a week in the Chancery Court at Gulfport... This, of course, could be true if the court was not apprised of the facts, and if perjured testimony was offered. The laws of Mississippi would permit the filing of a bill and a waiver of service which would allow the granting of a divorce in this short time, but we can say, without the fear of contradiction, that if Judge Russell knew the actual facts, no divorce would be granted in such cases... He is one man who is cognizant of the fact that he has taken an oath both as a lawyer and as a judge, and regardless of his oath of office, he is an outstanding christian gentleman who would not tolerate such practices, even though he were not a judge... We feel that the Item owes Judge Russell an apology, and that they also owe to him and to the members of the bar of Harrison County the duty to make public the name of the lawyer who was to join with their reporters in the attempt to perpetrate a fraud upon the court... The courts of our state cannot cope with such practices unless they are in a position to know who the guilty parties are, and, above all, the lawyers of the Harrison County bar stand charged unless the shysters are ferreted out and disbanded... We again reiterate our statement, that it was unfair to Judge Russell to infer that his court was a party to such practices for, of all lawyers and judges with whom we have come in contact, we have found none more conscientious and honest than Dan M. Russell, Sr.

She has first hand information on her subject, and has these two strong points which she has used in addresses—"Hawaiian boys are fighting and dying in Korea. We have had 1000 casualties and yet these boys cannot vote in a presidential election," and "Bringing Hawaii into the Union as a state would not be a change of policy for this country."

Discuss "Rosary Crusade" At NCCW

The seventeenth annual convention of the Nathechee Diocesan Council of the National Council of Catholic Women was held in Biloxi at the Buena Vista hotel Saturday and Sunday, November 3 and 4.

The theme of the convention, which was opened with a reception in the Sacred Heart Academy auditorium, was "The Rosary Crusade - Christian Community." In two addresses, the Most Reverend Bishop R. O. Gerow urged members to support the crusade of the family rosary and reminded them that "The Family Which Prays Together, Stays Together."

New officers elected at this meeting were Mrs. J. W. Mitchell of Biloxi, president; Miss Mabel Dellzell, Biloxi, treasurer. Vice-presidents of the organization are the presidents of the various districts of the Nathechee Diocese: Mrs. Alden Mauffray of Bay St. Louis is serving the Bay St. Louis District. Delegates attended Mass Sunday at the Church of the Nativity celebrated by Bishop Gerow.

At the afternoon session, Mrs. Aynaud Hebert of New Orleans, Provincial Director of the National Council of Catholic Women, reminded delegates that they must not forget that keeping and caring for the home and children are not enough; they must train for contributing toward state and national affairs. Mrs. Hebert told of the vastly changed conditions of the present day and stated that Our Holy Father, in addressing 50,000 women, urged them to train for leadership in public life.

Rev. James Whelan, S. J. of Loyola University and Rev. Francis Woods, Associate Director of the Family Rosary Crusade, dwelt strongly on the importance of prayer, particularly recitation of the Rosary. At the banquet they spoke of their experiences in promoting greater interest in the Rosary Crusade.

In conclusion, Father Whelan stated that Pope Pius XII appealed to people of every nation to recite the Rosary daily, stating, "with the entire world united in the daily recitation of the Rosary against the impending evils of our day; we will be using a spiritual force that is unconquerable."

Father Woods added that a national advertising campaign is in formation at present; and, in conjunction with a great crusade by Catholic men of the nation, will begin in January 1952, when the Rosary Crusade will officially open in the state of Mississippi.

Mrs. Alden Mauffray and Mrs. George Stevenson of Bay St. Louis attended the convention.

Twelve roles will be cast for the final play of the 1951 season at the Bay St. Louis Little Theatre, Friday, November 9, at 8:00 p. m.

The Theatre will ring down the curtain on a successful season with the three-act comedy, "Gramercy Ghost," by John Cecil Holm. Mrs. Frank Kiefer, production manager will direct the production.

The play was produced this year at the Morisco Theatre in New York starring Sarah Churchill and Robert Sterling; it has never been produced by any non-professional group. The local players have the distinction of being the first Little Theatre to produce the comedy.

In order to cast the play, sixteen of any ages, and six women, one of whom must be rather young and others of any ages, are required. Everyone is urged to be present at the Theatre tonight and try out for one of the parts to help close the season with another smash hit, the director added.

Rotary Views Film On Swift Company

The Bay St. Louis Rotary Club was treated to a film at their weekly meeting Wednesday, October 31, which took those seeing it through Swift and Company's Packing House.

The story around the film was that of a DP from Russia who had been told of the unjust manner in which working people were treated in the United States. So Swift's was taken as an example; and it showed the freedom of those employed, the friendly feeling between employee and employer, and other freedoms which are granted employees in America, which is always for its people.

The Rotarians and their guests were indebted to Syvan J. Ladner for this show.

Bay High Chatter

As November 12-17 is American Education Week, all parents are invited to visit the school some time during the week and to sit in on as many classes as they may wish to visit. A schedule is being worked out for visitors so that no class will have more guests at any one period than it can handle.

The Jesters, junior and senior dramatic groups, will present "The Little Red Schoolhouse" for the P. T. A. at the meeting Tuesday, November 13.

The play is a one-act comedy that takes place in the classroom of a little red schoolhouse in any village in the U. S. Nobody could possibly sit before this rough, house in a schoolroom without giving vent to screams of laughter! Butch Callahan, the toughest boy in the class, is always picking on Mayberry Flutter, the sweetest boy in the class. Then there is Clarissa Porter, the stuck-up daughter of the head of the School Board; Marigold Talbot, the teacher's pet; Tessie Talent, who gurgles and simmers and "flirts" with all the boys, much to the disgust of the other girls in the class; Elsa Schmidt, the dumb little Dutch girl; Flash Graham, the laziest boy in the class who sleeps through most of the proceedings; Mary Bronson, the poor teacher who is almost driven out of her wits -- to mention only a few of the characters.

The cast of characters are: Mary Bronson, Barbara Ann Burrows, Ezra Porter, James Tappin, Mrs. Ezra Porter, Jerri Nichols, Clarissa Porter, Clara Puchey, Butch Callahan, Louis Bonnefont, Tubby Fink, Penny Cole, Mayberry Flutter, Howard McCurdy, Flash Graham, Mike Murphy, Pewee Reis, Sam Vaughan, Midge Reis, Pansy Parker, Elsa Schmidt, Mary Lou Scianna, Marigold Talbot, Temple Perkins, Tessie Talent, June Breath, Hildegard LeVerne, Sylvia Horton. The play is now in production under the direction of Mrs. Georgette Hall.

SPORTS SPOT

Last week the Tigers met defeat at the hands of the Demonstration Demons. Somehow the Tigers could not get started and lost by the score of 27-6.

Friday night, the local boys play host to Long Beach. This promise to be a good game as the Tigers fight for a second victory. After the game there will be a dance at the Youth Center. Music will be furnished by a hillbilly band, so come one, come all, we'll promise you a good time. Admission will be 50 cents. (Stag or couple)

Orchids to Rupert Braland and Kent Seller for the splendid cleaning given to the dressing room. Someday they will make good housewives, we think.

Penny Cole is welcomed back on the line-up this week. Penny has been out for five weeks with a broken ankle.

Billy James, quarterback, will be out for the remainder of this season, but he will be in tip-top shape for the forthcoming basketball season.

In the front yard at 12, every day, we see Coach Nobles "cleaning up" on marbles. One of these days his luck will run out.

Again, let us remind you to be sure and come to the "Victory"

dance after the game Friday night.

The Bay High teachers enjoying Mississippi Southern Homecoming activities this year were: S. J. Ingram, Mr. and Mrs. T. J. Broadus, Miss Alma Parker, Miss Frances Murry and Mrs. Juanita Erwin.

Mr. Ingram was elected a member of the Executive Committee of Alumni of the Southern District.

Mrs. Erwin, graduate of 1935, was among the group whose class was honored at the luncheon this year.

Leeman McHenry, former Bay High football player, played in the homecoming game and was responsible for two touchdowns by passing.

TEACHER VISITATION

Plans have been made this year for each high school teacher to spend a day observing the work of outstanding teachers in other progressive schools. This teacher visitation is a part of the program of in-service training for faculty members.

Mr. and Mrs. Broadus took advantage of the local All Saints' holiday and spent the day observing in the Pascagoula high school which was in operation on that day. Mr. Broadus visited classes in mathematics, studied the system of cumulative records and the testing program and observed the administrative work of the high school principal, while Mrs. Broadus visited classes in English and speech and observed a practice session of the high school chorus. Both feel that their visit was beneficial professionally.

PANEL DISCUSSIONS

Two sections of Mrs. Broadus' English classes made use of the panel discussion for oral work in English Monday. Donald Cott was moderator in the Junior class with Peggy DeHaan, Jane Wilson, Barbara McArthur, Grannison Sellier, Robert Miller, Donald Peterson and Edwin Ruhr serving on the panel with him. Rupert Braland acted as recorder, making a written record of the ideas and opinions expressed. The topic used in discussion was "What It Takes to Hold a Job."

In the Sophomore class, Sue Smith served as moderator and Rosemary Vaughn as recorder. Others on the panel were Mildred Adam, Ona Mae Lusich, Gayle Courrage, Lois Stoufflet, Lucien Hazlett, Norvin Roos and Lee Klein. The same topic was used for discussion.

The girls were distressed Monday morning when they learned that Miss Hilda Bearden, physical education director, would have to be out for at least two weeks because of illness. It will be necessary for her to visit the doctor every other day for treatment as well as to get plenty of rest. We are wishing for her a speedy recovery. In the meantime her work is being carried on by Miss Sybil Koeniger.

The Womens Auxiliary of the Bay-Waveland Yacht Club will entertain the children of its members at a Christmas party with Santa Claus on hand. The party will be December 23, and children 10 and under will be the guests.

NOTICE

We wish to announce that Johnny Saucier will deliver his first sermon Nov. 18, at 3:00 p. m. at the Morning Star Baptist Church, Sycamore Street, Bay St. Louis, Mississippi.

Everyone is invited to attend.

Seats will be reserved for our visiting white friends.

Shriner's Circus To Be In New Orleans

Jerusalem Temple of New Orleans will present their sixth annual Shrine circus starting November 16 and continuing through November 25.

The sixth annual Shrine circus will be one of the high points of New Orleans' entertainment season.

The circus will give fifteen performances during the course of its ten day stand. Shows are scheduled for each evening at 8:15 with added matinees on each of the two Saturdays and Sundays of the run.

With what is probably the strongest line-up of top-flight circus attractions that the New Orleans Temple has ever assembled, the 1951 show is expected to top last year's record smashing attendance figure, when more than 110,000 persons saw fifteen performances. Estes McKinney, chairman of the Shrine's General Circus Committee, predicts.

Prices have been held to the same low level in effect last year, Mr. McKinney said. General admission will be 60 cents for children, and \$1.20 for adults, with reserved seats costing \$1.20 additional.

As usual, proceeds of the show will be devoted to the support of a number of charitable organizations regularly assisted by Jerusalem Temple.

Principal among them is the Shrine's hospital for crippled children at Sheveport, but many local groups will also benefit.

The 1951 Shrine Circus will feature what is probably the greatest display of animal acts ever to show in New Orleans. Among the outstanding acts which will make up this circus will be the Simdu Troupe, who will perform a daring feature on the top of flying trapezes never before dared by any other troupe of performers.

In addition, there will be Terrell Jacobs, wild animal trainer, who will work with lions and tigers in the same cage; and the fabulous Hanneford Troupe, the world's outstanding barback equestrians. The other elements which make

up an outstanding circus will also be abundantly presented. Thrilling aerial displays, revolving and flying trapeze artists, tumblers, teeterboard troupes, balancing acts, high-wire performers, jugglers and many other attractions.

And, of course, there'll be a profusion of clowns -- more of them than the Shrine circus has ever presented before. Heading the zany continent will be "Sonny" Moore, highly regarded as a funnyman in the greatest clown tradition.

Last season's sensational revival of the pre-circus parade, which drew 200,000 spectators, will be continued this year, Norman Levenson, publicity chairman, and A. J. (Jud) Poche, Marshall, announced. Details are not yet complete.

County Agent's Notes

PREPARE NOW FOR KILLING HOGS

By JAMES TOLER

Hog killing time is just around the corner, and many farmers throughout the county will be killing, dressing and curing hogs right on the farm before too much longer.

Killing and dressing are both mighty important in getting first quality hams and pork. Confine hogs to be killed in a closed place to make it easy to catch them. Hogs that have to be run down before killing often do not bleed properly.

KILLING. It is better to stick the hog than it is to stun or shoot the hogs before sticking. Use a six inch knife, by cutting the arteries above the heart, while the hog is still alive, more blood is pumped out and a more complete bleed is obtained.

SCRAPING. Water too hot is often worse than water not hot enough. Scald in water 142 degrees, depending on type of scalding unit. When using the old barrel, start scalding at 165 degrees F.; 3 buckets boiling water mixed with 1 of cold will give just about the right temperature. Scald the hind end first. Take plenty of time; don't rush.

During real cold weather, it may be necessary to add a bucket of hot water before turning hog and soaking the head. However, remember that too hot water re-

sults in a poor cleaning job. It may set the hair.

INSECT CONTROL. Much of the corn being harvested shows signs of weevils; so, protect your corn from these insects by lining the crib before putting in the corn and fumigating.

Two fumigants most commonly used are mixtures of carbon tetrachloride with either carbon bisulphide, or ethylene dichloride—both of these mixtures are on the market under several trade names—spray these over the corn evenly as they do not damage the corn for use as food, feed or seed.

FARM BUREAU. At a meeting held in the Kilm High School, Tuesday, October 30, the Hancock County Farm Bureau, was organized with the following officers elected: Otto Rester, president; Alfred Wittorf, vice-president; Coney Weston, secretary.

The following were elected members of the Board of Directors: Otto Rester, Alfred Wittorf, Coney Weston, Fitzhugh Lee, and Carl Goss.

Otto Rester was also nominated as the voting delegate to attend the State Convention to be held in Jackson, November 13 through November 15.

NANCY HARTLEY WINS SCOUT PRIZE COSTUME PRIZE

The Girl Scouts of Miss Adele Bielenberg's troop had a gala evening last Monday when they met in the Band Hut to celebrate Halloween. Costume judging got underway early in the evening, and Nancy Hartley, a bewitching witch, won the prize.

Betty McColister, talented young dramatist, gave an unabridged version of her own Halloween story called "My Friend, Joe Thompson." She regaled the group with her witty antics.

The girls had a feast of home made cakes, candies, cookies, donuts, apples, petit-fours. There were many games, contests and prizes and just as the ghost stories got at their groti-est, real "haunts" appeared at the window to frighten them out of their wits. Some rumors say that a few boys around town learned of the celebration and were just peeping in the window. Others say maybe the head-less-horseman and a few gremlins were responsible.

Miss Jane Lang was confined to her bed for several days. It is reported that she is feeling much better.

Mrs. Donald DeMetz was a recent visitor in New Orleans.

Mrs. Mamie McDonald underwent a tonsillectomy at the McWilliams Clinic in Gulfport. She is doing nicely.

Birthdays recently celebrated in Pass Christian include Brenda Koosenberger, Mrs. W. (Thacker) Carter, Louis and W. J. LaSabe, Mrs. Mary Norris, Michael and Shannon Peckich, George Bentz,

Mr. and Mrs. A. J. Whitehead with their guests, Mr. and Mrs. Bish Mathis, spent a delightful weekend aboard Tag-II. They cruised around Cat Island and other favorite fishing spots leaving Friday and returning Sunday night.

Mr. and Mrs. David Wainwright have just purchased from Bish Mathis a home located on Sherman Drive. The Wainwrights, with their small son, are now in the process of moving.

Mrs. Geraldine Orrell will soon begin construction of a home on Sherman Drive. Mrs. Orrell teaches in the Home Economics Department of the Pass High School.

William F. McDonald, Jr., is visiting his mother, Mrs. Bill McDonald, Sr., of Davis avenue and his sister, Mrs. Dora Lee Wainwright, this week. Will you leave these to your children?

Men have died to leave you these 4 symbols of freedom:

A door key—your right to lock your door against illegal government force and prying.

(Fourth Amendment, U. S. Constitution)

A Holy Bible—symbol of your right to worship as you wish.

(First Amendment, U. S. Constitution)

A pencil—freedom to speak or write what you think, whether you agree with the government or not.

(First Amendment, U. S. Constitution)

And a free ballot—your right to choose the kind of government you want—your protection against government tyranny.

(Article I, U. S. Constitution)

These symbols have no meaning in countries where government controls everything—for there the individual man or woman has no freedoms.

But there are people who are trying to give the U. S. government more and more control over American life. "Let the government start," they say, "by taking over certain industries and services—the doctors, the railroads, the electric light and power companies."

Most of these people—like most Americans—don't want a socialist U. S. A. They have other reasons for government control. But when government, moving step by step, controls enough things, you have a socialist government, whether you want it or not. You'll be controlled, too. Then what freedoms will you be able to pass on to your children?

HOME COMING

The Bay High homecoming, Friday, October 26, was an enjoyable event with one of the largest crowds of graduates that ever attended a homecoming at the school.

The activities began with the football game at St. Stanislaus stadium between the Bay High and Lumberton teams. In spite of the fact that the Tigers were on the short end of the score, all the graduates had a wonderful time greeting old friends on a familiar stomping ground and recalling experiences of by-gone days. At half time the grads were greeted by a colorful formation presented by Miss Bearden's physical education girls as they spelled out "HELLO GRADS" across the entire length of the football field, while the Bay High Band played under the direction of James Brenneke. The half-time program was climaxed with the crowning of the homecoming queen, Helen Ruth Moran, by the football team captain, John Ginn. The maids were Mary Lou Scianina, escorted by Louis Bonenfant; Shirley Davis, escorted by Gerald Coludrovich; Clare Corr, escorted by "Buck" Parker; and Janet Breland, escorted by Herman Polillon.

The homecoming celebration ended with a dance in the Bay High gym for which Kramer's orchestra provided the music. The gym had been colorfully decorated under the supervision of Miss Hilda Bearden. A feature of the decorations was a huge tiger in the north end of the gym painted by Jerry Bienvenu. At intermission time Tedo Thomas, president of the Boosters' Club, checked the attendance of members of the graduating classes back into the 1920's. Mrs. Elder Seller of the class of 1926 was the oldest grad present. She is the mother of three members of the Bay High football team: Lionel, Grannison and Kent (about 75 pounds of tiger). The class of 1950 had the highest percent of attendance and was awarded a trophy. This trophy will be awarded each year in the future to the class with the highest percentage of attendance at homecoming.

RESULTS OF CRUSADE FOR FREEDOM DRIVE

Our first drive of the school year was completed last week when the proceeds and a long list of names were turned over to Homer Gregory, Hancock County Chairman of the Crusade for Freedom Drive. The total amount contributed by students of Bay High, Webb, and Taylor schools was \$27.83.

The Seniors led with a donation of \$5.92. The Juniors came in a close second with \$5.01; the fifth grade led the Elementary Department with \$3.50. We feel

that we have done a small part in piercing the Iron Curtain.

THE SCIENCE CLUB

The Science Club met October 19 for the purpose of electing officers. Those named were Lionel Seller, president; Herman Polillon, vice-president; June Breath, secretary; Robert (Lizzy) Corr, treasurer; Myles Dale Favre, reporter.

A special committee was appointed by the president to help Mrs. Vaughn the sponsor, select speakers, films and other things pertaining to Science. Those elected were Shirley Davis, June Breath and Myles Dale Favre. The Science Club will meet on Friday of the first and third weeks of the school month.

BAY HIGH BAND PARADES IN GULFPORT

Last Thursday the Bay High band took part in the parade in connection with the STENNIS-COLMER DAY celebration. The 15 block parade was made up of bands from the coast and the coast officials. Senators Stennis and Colmer held the place of honor in the parade.

BAY HIGH TO PUBLISH ANNUAL

The Bay High Senior class will sponsor an annual. The staff will be under the direction of Mrs. Norman B. Hall, senior sponsor. The annual will contain pictures of the members of the high school classes the faculty, various organizations and class officers. There will be a beauty section in which girls, chosen by the students, will represent their classes.

The year book will be published by the Kansas Publishing House, which has published annuals for Bay High in the past. Pictures of people and scenes around the school are being collected through camera contests which end every two weeks.

OUTSTANDING FRESHMEN

The first edition of the Student Prints featured the freshman class. The outstanding freshmen chosen by the faculty are Jean Victoria Ashehl, age 15, Kent Seller, age 14, Jean and Kent have attended school at Bay High for eight years, and Clayton Adams for five and one-half years. All three intend to graduate here.

Mrs. Alice Wall and Mrs. Kenneth Whitfield attended the annual meeting of the Baptist Women's Missionary Union of District 12 at Pascagoula.

A. Kuykendahl Wins History Award

Annette Kuykendahl, eleven years old and a new-comer to Pass Christian from mid-Minnesota, topped the award offered the Good Citizenship Club for the winning paper on Pass Christian History.

Annette says she loves to read and had wonderful cooperation in getting material for her article together from the "Town Library." We print in full Annette's prize-winning article:

THE HISTORY OF PASS CHRISTIAN

In 1699 the French tried to find the mouth of the Mississippi River from the sea. They sailed around the North Western shores of the Gulf, and found Cat Island and Ship Island. There were many raccoons there on Cat Island. They thought they were cats, so they named the island "Cat Island."

A vessel named "Captain Speed" of New Orleans, of thirty-seven tons burden, was brought down past Biloxi and then ordered removed to Naval headquarters at Ship Island.

In 1860 the population of the county was 3,500 people. John Brill lived at Pass Christian and kept a drug store. He also had a team boat wharf, where the Dunbar-Dukate factory is now situated.

Finley B. Heirn also lived at Pass Christian. He owned a strip of land. He also operated a saw mill on the beach at what is the extreme east-end of Pass Christian.

Ben Davis also lived in Pass Christian. He also owned a strip of land and kept a little store. In 1869 the completion of the Louisville and Nashville Railroad through the Pass made it possible for families to build or buy new homes.

Pass Christian is famous for many things, from oysters to aristocrats, but the aspect which remains longest in one's memory, perhaps, is the Tunnel of Trees that covers Hi-way 90 as you come into town from the East. Pass Christian has been noted for years for health and vacation resorts.

Pass Christian was one hundred and eleven years old when it came under the Stars and Stripes. France, Spain, England, and the Confederate states have all impressed their cultures and influences upon Pass Christian.

WEEKLY NEWS LETTER

by
W. F. BOND, Commissioner State Department Public Welfare

In our program of aid to dependent children, Mississippi with an average monthly grant of \$5.17 per child is hardly doing half as much for these children as other states in our region. The average in Alabama is \$10.43, Arkansas \$10.00, Georgia \$14.00, Kentucky, \$12.00, North Carolina \$12.65, South Carolina \$10.33, and Tennessee over \$13.00. These other states are also helping a much larger number of children than we are helping in Mississippi with the exception of South Carolina.

Needy children cannot speak for themselves nor vote now but their votes, white and black will help determine the fate of our State and nation a few years from now.

Some weeks ago a person passing a shack in one of our counties in Mississippi, hearing considerable noise inside, looked in and saw several small, half-naked white children fighting over a raw turnip. There was no father and the mother was not at home. To neglect children of this kind is to help breed socialism and communism in our land of plenty.

What do you know about Mississippi's Oil and Gas Industry?

How many Mississippi towns and communities have natural gas service and what is their source of supply?

By September 1951, 160 towns and communities had natural gas service and plans are in progress to serve over 30 others. Approximately 3% of the area of Mississippi is served by pipe lines crossing the state carrying gas from Texas and Louisiana to large markets beyond. Mississippi has 6 gas fields to which pipe lines are connected. These fields are supplying many of our towns with natural gas. Long before the development of substantial gas supplies in this state however—in fact, for more than 20 years—we have been getting large amounts of gas from our neighbors in Louisiana and Texas.

Is there plenty of gas for industrial development in Mississippi?

Yes, there is plenty of gas available from pipe lines connected with our own fields and the great gas fields of Louisiana and Texas. Officials of large and stable industries have recently announced that among the factors influencing their decision to locate in Mississippi was the availability of natural gas at reasonable rates.

Do any Mississippi producers sell their gas to markets outside Mississippi?

Yes, Mississippi gas is being sold to consumers in Louisiana, Alabama, Florida and Georgia.

What about Mississippi's oil and gas conservation law?

Mississippi has what is generally considered to be the most modern and comprehensive oil and gas conservation law of any of the producing states. This law and its enforcement by the State Oil and Gas Board has won wide acclaim throughout the United States. The Board and its staff of petroleum engineers regulate the drilling of new wells and keep a constant check on all producing operations so that the maximum amount of oil and gas will be recovered without waste. This works for the benefit of the state, the landowners and the oil and gas industry. Administrative cost of the conservation law is paid from an extra tax on production.

What is the oil and gas severance tax?

A special tax on production, currently averaging \$460,000 monthly. On oil it is 6 cents per barrel or 6% of value, whichever is greater. On gas it is 3 mills per 1,000 cubic feet or 6% of value, whichever is greater. Total oil severance taxes from March, 1944 to July, 1951 amount to \$27,915,294.21; total gas severance taxes from July, 1948 to July, 1951 amount to \$1,242,265.04.

How do Mississippi taxes on oil and gas compare with other states?

The net tax per barrel paid by Mississippi producers is on a comparative level with Louisiana and is considerably higher than other producing states. Factors causing this are the relatively high severance tax and the state income tax, which does not permit a deduction for "depletion," an allowance which is granted by most oil and gas producing states as well as by the federal government.

How many refineries are there in Mississippi?

At present Mississippi has two refineries, one located near Yazoo City and the other near Ithaca. They processed 2,204,953 barrels of crude in 1950. The refining plants in the Gulf and Brookhaven fields also produce several grades of light oils in the course of their operations.

How can we get additional refineries built in Mississippi?

By encouraging exploration so that more fields and reserves will be discovered necessary to support industry and by encouraging capital, both inside and outside Mississippi, to invest money in building refineries.

How much did Mississippians receive in royalty payments and lease bonuses and rentals last year?

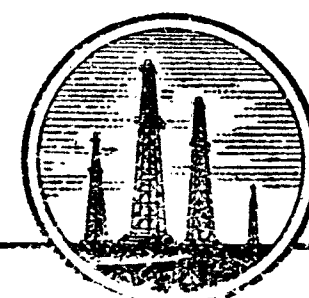

Approximately \$14,000,000.

How many Mississippians are now directly employed by the oil and gas industry? What is the annual payroll?

Approximately 5,000 men and women are directly employed in the production and transmission of oil and gas at an annual payroll of \$15,000,000. Hundreds more earn their living through jobs closely connected with the industry.

What can Mississippians do to encourage the expansion of the oil and gas industry?

Like all industries, the oil and gas industry grows where conditions are most favorable. Mississippi's attitude of encouraging industrial development has been an important factor in the rapid expansion of the state's oil and gas industry. In such a friendly atmosphere the industry will continue to expand thereby creating more jobs, more payrolls, more tax revenue and greater prosperity for every Mississippi.
